

Fiber Connect

The need for a fast and reliable Internet connection has become increasingly important for today's businesses.

To address these requirements, *Visual Online* (VO) provides a symmetrical Internet connection (offering high speed in both directions) with a guaranteed capacity (bandwidth reserved to your business) ranging from 2 Mbit/s to 1 Gbit/s.

The picture above shows the 3 most usual customer situations

Customer 1:

A fiber connected from his offices to our *VO Fiber LAN*. His Internet connection is provided from our datacenter (route n°1).

Customer 2:

As our *VO Fiber LAN* is based on Layer 2 switching, this customer can have a network connection (transport only) in place between his offices and his co-location devices in our datacenter (route n°2). From our datacenter, Internet connectivity is provided (route n°4).

Customer 3:

His offices, on 2 different locations, can be connected to our *VO Fiber LAN* and then be interconnected on a dedicated VLAN (route n°5). Both sites have access to the Internet via our datacenter (route n°3).

FiberConnect Features:

- ✔ High capacity dedicated access
- ✔ Synchronous upload and download.
- ✔ Speed access from 2 Mbits/s to 1 Gbits/s
- ✔ Layer 2 for an easy integration with existing LAN infrastructures
- ✔ Live monitoring of IP Transit usage
- ✔ Reliability of the Metro-LAN provided by P&T
- ✔ Flexible adaptation of bandwidth as your business grows.
- ✔ Business SLA available

FiberConnect is the ideal internet connection for any business needs, from routine web browsing, file transfer and email to the full scope of mission-critical and data-intensive internet services that require more internet bandwidth such as remote networking, online transactions, VoIP, Video, Media Streaming, Storage Area Networks and Disaster Recovery.

Fiber is available nationwide in the Grand Duchy, however, a technical check is required to evaluate the feasibility. Do not hesitate to contact your *Visual Online* representative for more details or visit our website www.fiber-connect.lu.

About Visual Online:

Visual Online is one of the biggest **Internet** and **VOIP** service providers in Luxembourg with its own international redundant backbone and **Datacenter** infrastructure. We are also a **Domain name** registrar for most of TLDs through our <http://www.dns-stock.com> platform.
